## Experience

DoorDash

Doordash

September 2019 - Present (1 year 9 months)

Kenzie Academy

Software QA Tester(Student Project)

April 2021 - April 2021 (1 month)

I was the main QA Tester in my group capstone project at Kenzie Academy developing a Dropbox style website from scratch using the Django framework. In addition to contributing to the code, my main duties were insuring there was no bugs, handling Github pull requests and any merge conflicts, and insuring the project was ready for presentation.
